Article:	Gogain
Hide size:	4.20 m ²
Thickness:	ca. 0.9 mm
Finish:	Gogain is a full grain article with an aniline barrel, so rightfully a "pure aniline" for connoisseurs the only real leather. For Gogain New Zealand bulls are used with an average size of 4.75 m ² and a thickness of 1.0 mm / 1.1 mm. Because of the complete open structure all-natural characteristics are and remain visible, these cannot be labelled as mistakes in any way, but are rather a sign of real leather. Because of the aniline barrel the Gogain gets its deep vivid colour, because of this colour differences can occur but also these belong to the charms of a pure aniline.
Maintenance:	If staining does occur, it is advisable to dab the stain with a soft, damp cloth. Optionally, a cleaning detergent can be used, providing that it is water based and contains no solvents or alcohol.
Light fastness:	The consequences of the aniline leather type is there no protective covering which makes it susceptible to discoloration by sunlight. It is therefore not recommended to place furniture upholstered with Gogain in direct sunlight. Due to the natural properties of leather colour variations between one dye lot and another may occur.

Design

Identity Collection created by David Irwin with Bute Design Studio.

Application

Jacquard woven fabric suitable for upholstery and drapery in both heavy duty contract and domestic applications. Also suitable for drapery application.

Composition

68% wool, 21% Polyamide, 11% Silk

Fabric Weight

532g/linear metre, 380g/m² approx.

Fabric Width

140cm approx. standard usable width.

Fabric Length

Lengths controlled and registered by calibrated measuring devices.

Abrasion Resistance

Martindale 100,000 cycles

Light Fastness

Colours comply with the requirements of BS EN ISO 105 – B02

Flame Retardancy Certifications

Passes Crib 5 Contract Upholstery
Passes Cigarette and Match
Passes Curtain and Drape
Passes IMO Upholstery

After Care

Regular maintenance greatly extends the useful life of a fabric. Ask for details of cleaning recommendations or consult a professional cleaning organisation.

Special Requirements

Our Design Studio collaborates in the development of special fabrics to fulfill aesthetic or fitness-for-purpose criteria.

Ongoing Development

It is our policy to promote continuous product development and we therefore reserve the right to change technical specifications, introduce or withdraw fabrics from the Bute Collection without prior notice.
