

spoing

ONS VERHAAL

Spoing is een in 2011 opgericht Nederlands designmerk voor de projectmarkt. Onze collectie wordt vorm gegeven door samenwerking met gevestigde Nederlandse ontwerpers en onze eigen studio.

Deze mix van visies geeft Spoing die uitstraling die net iets anders is dan anders.

De scheidslijn tussen thuis en werk en privé is tegenwoordig erg dun. Wij geloven dat men fijner en beter werkt in een prettige omgeving. Met Spoing kun je die huiselijke sfeer geven aan jouw persoonlijke werkplek.

Naast kantoorprojecten, vind je Spoing ook terug in zorg-, onderwijs- en leisure projecten. Logisch: het is eigenwijs, mooi en oersterk. Onze meubelen zijn breed inzetbaar in vele settingen, en worden dan ook graag ingetekend door architecten voor veel verschillende soorten projecten. Spoing is geliefd bij architecten omdat veel van onze items naar wens zijn samen te stellen. Doordat men zelf kleur, stof en materiaal kan bepalen past Spoing in vele uiteenlopende stijlen en sferen.

OUR STORY

Spoing is a Dutch design brand founded in 2011 for the project market. Our collection is designed in collaboration with Dutch designers and our own studio.

These mixed visions give Spoing that look that is slightly different than usual. We believe that you can do your work better in a pleasant environment. With Spoing you can add a personal touch to your workplace.

In addition to office projects, you will also find Spoing in health-care projects, education and leisure projects.

Spoing is loved by architects because many of our items can be designed according to your wishes. Because you can mix color, fabric and materials, Spoing fits in many different styles and atmospheres.

MADE IN HOLLAND

Wij zijn er trots op dat onze volledige collectie in Nederland wordt geproduceerd. Wij kiezen voor de inzet van vakmensen die met plezier werken aan een duurzaam product. Dit vindt allemaal plaats binnen een straal van 40 km rondom ons magazijn en onze showroom in Waspik.

We are proud that our entire collection is produced in the Netherlands. People who love to make sustainable furniture. All this takes place within a radius of 40 km around our warehouse and our showroom in Waspik.

DUURZAAM

Spoing streeft naar een duurzame economie. Zo voldoen al onze meubelen aan onze vaste waarden: een goed ontwerp, hoogwaardige kwaliteit en herbruikbaarheid van materialen. We produceren alles in de buurt waardoor ons transport en uitstoot tot een minimum beperkt blijft.

SUSTAINABLE

Spoing strives for a sustainable economy. Our furniture meets our values: good design, high quality and reusability of materials. We produce everything near the company which keeps our transport and emissions to a minimum.

PRODUCEREN OP AANVRAAG

Wij stofferen onze meubelen op maat nadat ze besteld zijn. Uiteraard hebben we alle onderdelen op voorraad liggen, maar het uiteindelijke meubel wordt op maat gemaakt, waardoor er ook geen onverkochte meubels in ons magazijn achterblijven.

PRODUCT ON REQUEST

We upholster our custom-made furniture after they are ordered. Of course we have all the parts in stock, but the final furniture is custom made, so that no unsold furniture is left in our warehouse.

DUURZAME PARTNERS

Wij werken samen met partners die duurzaamheid hoog in het vaandel hebben staan. Zo worden alle restant stoffen verzameld om er bijvoorbeeld akoestische panelen van te maken. Ook is de gehele stoffeerderij, dankzij het gebruik van zonnepanelen en warmtepompen, CO2-neutraal.

SUSTAINABLE PARTNERS

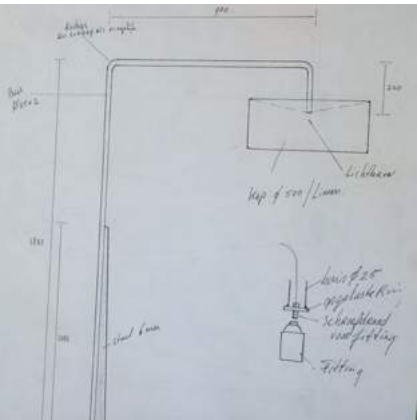

We work with partners who consider sustainability important. For example, all residual materials are collected to make acoustic panels. Our upholstery is also CO2 neutral, thanks to the use of solar panels and heat pumps.

TIJDLOOS ONTWERP

Wij kiezen bewust voor een pure stijl en een tijdloos ontwerp, dat niet aan diverse modegrillen onderhevig is. Herstofferen van onze meubelen behoort ook tot de mogelijkheden. Hierdoor gaat een ontwerp jarenlang mee.

TIMELESS DESIGN

We consciously choose a pure style and a timeless design, which are not subject to various fashion whims. Re-upholstering our furniture is also possible. This means that a design will last for years.

DUURZAME MATERIELEN

Spoing bestaat uit pure en eerlijke materialen: staal, hout en wol. Er wordt zoveel mogelijk FSC hout gebruikt, de lakken & lijmen zijn watergedragen en het meubelschuim is recyclebaar. Transport doen we vanzelfsprekend met zo min mogelijk verpakkingsmateriaal en combineren we daar waar het mogelijk is.

DURABLE MATERIALS

We use pure and honest materials: steel, wood and wool. As much FSC wood as possible is used, the lacquers & glues are water-based and the furniture foam is recyclable.

REFURBISH OR RECYCLE

Om de levensduur van onze meubelen te verlengen is er soms een nieuw stofje nodig. Het is mogelijk om zittingen te vervangen zodat deze weer jaren mee gaan. Soms is een product na jarenlang intensief gebruik niet meer geschikt voor herstel. Daarom worden onze producten zo ontworpen, dat zij makkelijk demontabel zijn. Zo zijn de verschillende onderdelen aan het einde van hun levensduur gemakkelijk van elkaar te scheiden en kunnen de verschillende materialen op eigen wijze gerecycled worden.

REFURBISH OR RECYCLE

Sometimes a new fabric is needed to extend the life of our furniture. It is possible to change the seats only so that they will last for years to come. It happens that, after years of intensive use, a product is no longer suitable for recovery. That is why our products are designed in such a way that they are easy to disassemble. So that the different parts can easily be separated for recycling.
